

IT'S WEAR LIKE THIS THAT CUTS YOUR SHOE EXPENSE

Stepping on small pieces of hot metal, walking on sharp chips of steel, standing in hot sand—these, and other harsh conditions of walking surfaces, in a steel plant, have no apparent effect on Neolin Soles. So says R. J. Doty, plant superintendent of the Sycamore Steel Casting Company, Milwaukee, Wisconsin.

"The best oak tanned leather soles last about three weeks under the abuse given them in the foundry, while I have been wearing a pair of Neolin Soles for more than three months. And to all appearances, they are as stout as when first put on my shoes," says Mr. Doty.

Only Neolin Soles can resist wear and abuse like this. They are created by Science to be very tough and durable—flexible and waterproof, too. To reduce your own shoe expense, and to cut the family shoe bills, buy Neolin-soled shoes. You can get them in many styles for men, women, and children.

And have your worn shoes re-hot-tomed with Neolin Soles. These long-wearing soles are manufactured by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outlast all other heels.

British and French War
Vessels Are Reported
Near at Hand

Paris, Monday, March 24 (By the Associated Press).—Unofficial reports from Budapest state that allied missions there are debating the advisability of leaving and that the disarmament of French troops in the city is being considered. Order prevails and no injury has yet been done foreigners. American representatives are being assured protection and may be asked to remain, it is said.

Martial law has been declared and the death penalty has been prescribed for armed resistance to the bolsheviks; for robbery and looting. A fine of 5,000 crowns has been fixed for the sale of alcoholic liquor, and a fine of 10,000 crowns for drinking it. Two British monitors are reported to have arrived at Budapest, having been under fire on their way up the Danube. Other British and French vessels are near at hand. A British patrol boat was seized by the authorities but was returned with apologies by the government.

It is said that rumors that Hungary has declared war on Rumania, Czechoslovakia and Jugoslavia are doubtful. Six hundred Hungarians, who have been prisoners of war in Russia, are said to be returning daily across the Carpathians, being under the influence of bolshevik doctrines.

NO REASON FOR IT

When Barre Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Barre citizen says:

Mrs. William Rock, 17 Farewell street, says:

"I recommend Doan's Kidney Pills, as I have found them an excellent remedy. I used them when I was troubled by dull pains in the small of my back. I had frequent dizzy spells, when everything turned black in front of me and I felt faint and weak. Two boxes of Doan's which I got at the Red Cross Pharmacy brought satisfactory relief."

Grandmother Knew

just what to do to keep her family rugged and well. She believed in nature's remedy, the life-giving juices of leaves, roots and herbs, which are united in SEVEN BARKS and which has been a standard and favorite remedy for indigestion, constipation, kidney, liver and stomach troubles for nearly 50 years.

You cannot be constipated and happy at the same time. If you have a bad taste in the mouth, foul breath, furred tongue, dull headaches, drowsiness, disturbed sleep, mental depression, yellowish skin, then you are constipated, and SEVEN BARKS will quickly relieve this disorder, which is the result of liver derangement, and severe digestive disturbances.

Be prepared for these emergencies; always keep SEVEN BARKS on hand, and take from 10 to 20 drops in a little water after meals, and it will quickly cause the bowels and liver to act normally.

If you want to get the greatest efficiency out of your body, you should take SEVEN BARKS, so that the stomach may do its best work, and not be handicapped by the burdens we foolishly sometimes put upon it. For sale by druggists. Price, 50 cents per bottle.—Adv.

It was one of several cars in a round-up of stolen Fords last week. The man who had Mr. Bolles' car had 13 other stolen cars in his possession. The car had been very carefully camouflaged, the generator removed, a new radiator attached and other changes made. In attempting to crank the car so as to drive it home there was a backfire and Mr. Bolles' right arm was broken. As a result he came home without the car.

HURRYING UP PEACE PARLEY

All the Delegations in Paris
Anxious Over Cen-
tral Europe

FEEL NECESSITY
OF QUICK ACTION

And Will Hold Two Sessions
Daily to Bring Mat-
ters to a Head

Paris, Monday, March 24 (By the Associated Press).—All the delegations to the peace conference are very anxious regarding the situation in eastern Europe and are impressed with the necessity of quickly doing something to hasten the return of normal conditions to the rest of Europe. President Wilson and Premiers Lloyd George, Clemenceau and Orlando have decided that, beginning Tuesday morning, they will hold two sessions daily to bring to a conclusion in the shortest possible time the principal questions concerning the Franco-German and the Italy-Jugo-Slav frontiers, reparation and the league of nations. The ministers of foreign affairs, who have heretofore been included in important conferences, will not be present during the premiers' meetings this week.

President Wilson and Premier Orlando will meet Tuesday morning to discuss the problem of the Italian frontier. It is becoming more urgent each day to reach a solution of this problem because of the disorders occurring on the eastern coast of the Adriatic. Both Premier Orlando and Premier Lloyd George must return to their respective capitals soon, as their absence at the present moment is more acutely felt because of the spread of bolshevism.

113,000 PERSONS DIED IN
PETROGRAD IN FEBRUARY

Hunger Plague, Smallpox and Typhus Is

Raging Unchecked—Coffins Rented

for Funerals.

Paris, March 25.—During February more than 113,000 persons, or more than 11 per cent of the entire population, died in Petrograd, according to Russian police statistics just received in Paris.

On Feb. 1 the total population of Petrograd was 900,000. During the month 77,000 persons left the city.

American relief workers who left Moscow on Feb. 12 say that deaths in that city early in February averaged 4,000 daily. They say that conditions there were similar to those in Petrograd, where smallpox, typhus, starvation and the "hunger plague" were raging unchecked. Coffins are no longer sold in Moscow, but are only rented for use at funerals.

In addition to spotted fever and typhoid fever, Petrograd is being ravaged by smallpox, according to advices through Helsinki. All the hospitals are crowded and the mortality is increasing daily. The bodies of the dead are collected in big wooden cases and emptied into large graves, the cases then being returned to the hospitals and filled again, and the process repeated.
